## Resume / CV

## Personal Information

Name: Address:	Hugo Masias Breslauer Strasse 3	
Phone:	59423 Unna (+49) 2303 9699919 (+49) 176 98824360	
Email:	hugo.mas.mue@gmail.com	
Date of birth: Place of birth: Civil state: Nationality:	1957 June 04 Lima / Peru married Peruvian	

## **Education & Studies**

1962 - 1975	Peruvian-German School "Alexander von Humboldt" in Lima Graduation diploma (bilingual), high-school degree
1976 - 1984	Business Administration Studies La Universidad de Lima, Lima Peru Bachelor in Business Administration
1981 - 1983	Basic studies in Computer Science Fernuniversität Hagen, Hagen Germany

## Professional Background

1984 - 1999	Software development - business applications in Lima and Florida Independent consultant • Business software for retailers and industry • Database management systems
1991 - ongoing	Creative work in music electronics; development of two innovative product prototypes for the music industry, including U.S. patent <b>Freelance – product design &amp; engineering</b> • Unique synthesizers for composing and playing music
2008 - 2018	Health care and assistance "GbR Hugo Masias, Dorota Kawa" in Germany (joint venture with my wife) • Organization, management, services

### Knowledge in Computer Science - Programming abilities

• Programming languages and systems BASIC, COBOL, Pascal, C++, Python Kivy framework for Python; Juce framework for C++

Database management software

DBMS for LAN networks; Novell LAN system for servers; MS-DOS PCs for clients; DBMS products: Smart Software, dBASEIII, FoxPro, Paradox, Clarion

Musical software

Sequencer, music notation, sound synthesis Cakewalk, Cubase, SampleTank, Project 5, Ableton Live

• Musical software - development tools Development platform for MIDI, sound synthesis: Sound Quest Infinity; Cycling '74 Max MSP; Juce framework for C++

• Knowledge & experience with PCs Windows OS and Microsoft Office: high-end user

### Knowledge in other areas - Other skills

- German driver license class B
- Language skills
  - Spanish native language; University degree
  - English good skills overall
  - German good; last 15 years living in Germany
- Vocational studies in music theory and piano playing The David Sudnow method - Miami, Florida
- Trade, selling experience consumer products
  - Audio and musical gear; export-import in-between Miami, Florida and Lima, Peru
- PowerPoint business presentations development
- Creating / deploying of Internet websites
- Playing keyboards in a band as a young fellow

## **Cover Letter**

Good day (!)

I am 66 years old already. Looking backwards, I dedicated most of my time, energy, and efforts to a number of activities within the following four fields / areas

- 1) Academic studies in the field of business & management
- 2) Computers: Programming & software development in general
- 3) Learning music; playing keyboards—piano, synthesizers, etc.
- 4) Creating new products and systems in music electronics

Knowledge, experience and activities worth mentioning are

- · Bachelor degree in business administration
- · Software development in accounting/business
- · Software development in music electronics
- Design and engineering in music electronics
- Music theory, musical systems, musical instruments
- Writing patent documents, describing techniques and methods
- Business-project descriptions; PowerPoint presentations
- Spanish (native), English and German (as foreign languages)

# Hugo Masias – Summary

#### Knowledge and work experience

#### Between 1984 - 1999

 Creating / developing business software - a database system for retail-store businesses A comprehensive items-to-sell database; storage & retrieval system Purchasing & selling: Transactions management; processing orders and invoices

#### Since 1991

 Various music electronics projects based on new concepts and ideas Creating, developing, building, testing hard & software prototypes and systems Writing down business presentations targeting investors and entrepreneurs PR activities; getting in touch with potential investors and entrepreneurs

#### Skills in general

- Product innovation studying, creating, improving products in music electronics
- Good knowledge of music; theory and practice; the piano
- The industry: Acoustic instruments, electronic instruments, MIDI controllers
- Creating end-user musical software with C++ and framework libraries
- Peru is my country of origin; 40 years in Lima, Peru; native Spanish speaker
- 8 years United States--during the 90s and 2000s; living in South Florida; South California, and Kansas City
- · Good knowledge of English; every-day life; business; technology; the world
- 17 years in Germany; 2 years long back in 1981 plus the last 15 years of my life
- Good knowledge of German; every-day life; business; technology; the world

#### Knowledge and working experience – IT

Working with and around the PC

<ul> <li>DBMS business applications for small companies</li> </ul>	1984 - 1999
--	-------------

- Design & programming dBASE, FoxPro, Smart, Paradox, Clarion DBMS
- Platform / network Novell NetWare microcomputer server + MS-DOS PC clients
- New hard & software systems in music electronics
   1990 ongoing
- Design & programming; prototyping; tools: graphical OOP systems
- Software: Max MSP from Cycling '74, Infinity from Sound Quest, C++ the Juce framework

<ul> <li>Studies - C++, Python, the Kivy framework</li> </ul>	2014
<ul> <li>Pascal and Delphi (Embarcadero Technologies)</li> </ul>	2017
- C++, the Juce framework (Roli)	2018 - ongoing

<ul> <li>MS-DOS, IBM-DOS operating system</li> </ul>	1980s
<ul> <li>BASIC, Pascal, and COBOL</li> </ul>	1980s
<ul> <li>HP scientific programmable calculators</li> </ul>	1980s
<ul> <li>Apple Mac OS and Microsoft Windows OS</li> </ul>	1990s - ongoing
<ul> <li>Using Microsoft Office: PowerPoint, Word, Excel</li> </ul>	1990s - ongoing
<ul> <li>In-depth knowledge of MIDI: Musical Instrument Digital Interface</li> </ul>	1990s - ongoing

#### My personality

- · Positive attitude; always interested in learning and discovering
- A desire to study and analyze in depth it is fun
- · Positive attitude towards others a natural diplomatic attitude
- · Enjoy good relations with people; team-work friendly
- Help create a good atmosphere at work and anywhere else
- Flexible and open-minded; listens carefully

#### Personal achievement – The Vento Project

• The creation, design, development, building, and testing of a new product – a highly innovative musical keyboard synthesizer

• In this regard, a patent was granted and published in the United States in the field of hard & software musical systems. Patent No. 6,229,082 B1 - May 2001 - United States Patent and Trademark Office—the USPTO

• A working prototype of the so-called **MIDI database musical keyboard synthesizer** is available today for demonstration purposes. The prototype is **hardware** and **software**. The hardware: A 36-key keyboard MIDI controller. The software: End-user application software— built for Windows PC; available on the Windows XP platform

• This project is called The Vento Project. It started back in the year 1991. Please visit my website and find out what this project is all about; please go-visit

http://ventoproject.weebly.com

#### Personal achievement – The Amazing Pads Project

• The creation, design, development, building, and testing of a new product - an innovative virtual pad-matrix Midi controller for the PC: Designed to operate with touch-screen monitors

• The **Amazing Pads** Midi controller is a virtual controller that runs on any PC and TV-size tenpoint touch-screen monitor. It is based on a matrix of pads onscreen. It is powerful, unique, and flexible. The user plays onscreen—up to ten fingers can play simultaneously. The system runs on Microsoft Windows 10 and beyond

• This project started in April 2018. Please visit the website. This site is fully dedicated to this product—complete with plenty of text-and-graphics illustrations
